Scam Incident Log Sheet

BeScamAware
stay alert, stay safe

Use this log sheet to record any suspicious activity, scam attempts, or fraud-related incidents you experience or witness. Keeping detailed records can help you track patterns, provide accurate information when reporting to authorities, and protect yourself and others in the future. For each incident, fill in the date, describe what happened, note how you responded, and include anything unusual or important (e.g., names used, contact details, payment requests, etc.).

Bring this log with you if you're reporting a scam to Action Fraud, your bank, or support services.

Date	What happened?	How did you respond?	Anything noteworthy?
